AMANDA TERRELL

CLOUD SUPPORT | AWS FUNDAMENTALS | TECHNICAL OPERATIONS

Jackson, Georgia | Highlandterrell23@gmail.com | LinkedIn: linkedin.com/in/amanda-terrell-27122a37a

PROFESSIONAL SUMMARY

Cloud support candidate building hands-on AWS skills through guided personal projects, with 10+ years of experience supporting accurate, time-sensitive healthcare operations. Independently set up an AWS account and configured IAM access for a personal user, considering root account security and permission scope. Brings careful issue investigation, documentation, data validation, and user support experience from regulated healthcare environments.

TECHNICAL SKILLS

AWS: IAM, S3, CloudFront, API Gateway, Lambda, DynamoDB, CloudFormation (project exposure) | Tools: GitHub, HTML, CSS, Python (Lambda project), Epic, Cerner, Excel

HANDS-ON AWS PROJECTS

Cloud Resume Challenge | Personal project, guided hands-on learning

- Set up an AWS account and configured IAM access for a personal IAM user; worked through root account security and selecting permissions appropriate to the user.
- Built and deployed a static portfolio using Amazon S3 and CloudFront, with HTTPS delivery; used GitHub for source control and also maintained a GitHub Pages copy.
- Worked through deployment and security issues, including addressing an HTTPS warning by using CloudFront.

Serverless Visitor Counter | Personal project, guided hands-on learning

- Connected the portfolio to an API Gateway HTTP API and Python AWS Lambda function that atomically updates a visitor total in an on-demand DynamoDB table.
- Used AWS CloudFormation for infrastructure and GitHub to track project source. Source: github.com/terrella1/amanda-terrell-portfolio

PROFESSIONAL EXPERIENCE

OPTUM | Customer Service Advocate | Remote | Dec 2025–Present

- Review and validate member information in Epic and internal systems; investigate eligibility, benefits, claims, and workflow questions across multiple systems.
- Document findings and resolution steps, correct discrepancies within established procedures, and escalate complex data or workflow issues to internal teams.
- Handle sensitive health information under HIPAA and internal data-handling requirements while adapting to changing workflows and proprietary systems.

HCA HEALTHCARE | Scheduler | Feb 2022–Jun 2025

- Coordinated scheduling and clinical workflows in Cerner; verified patient, insurance, physician-order, and appointment information across Medicare and Medicaid processes.
- Investigated data and workflow discrepancies, maintained documentation, escalated complex issues, and trained new staff on EMR workflows and quality procedures.

SOUTH ATLANTA NEUROLOGY & SPINE CLINIC | Front Desk Receptionist | Sep 2021–Feb 2022

- Entered and validated patient and insurance data in EMR workflows; corrected registration discrepancies and protected sensitive records.

COVENANT HEALTH | Registrar | Jun 2015–May 2019

- Registered patients across inpatient, outpatient, and emergency settings; verified demographics and insurance and resolved registration data issues in a high-volume environment.

TRAINING & EDUCATION

Codemify Bootcamp, QA Engineering Track | Manual QA Certification completed; Automation QA training in progress. Training includes test case design, regression testing, defect documentation, requirements analysis, and UAT concepts.

High School Diploma | William Blount High School, Maryville, Tennessee
